YEHUDA AI LAB GROWN DIAMOND+ DETECTORS

YEHUDA AI KNOWS Advanced AI Color Coded Results

- ✓ DIAMONDS
- ✓ HPHT LAB DIAMONDS
- ✓ MOISSANITE
- ✓ CVD LAB DIAMONDS
- ✓ CZ

THE
PERFECT
DETECTIVE
HAS
ARRIVED

- Loose diamonds are easy.
- Mounted goods are easy.
- YEHUDA AI automates stone identification:
 - Which stones are **Natural**?
 - Which are **CVD** lab grown?
 - Which are **HPHT** lab grown?
 - Which are **Moissanite**?
 - Which are **CZ**? *Yes! For the first time ever, positive ID of CZ's is now possible due to YEHUDA's exclusive PATENT PENDING technology.*
- A dedicated phone or tablet is included. You can also use your own Samsung phone. *(Most models)*
- Instantly reevaluate AI results of individual stones.
- View the AI confidence level of individual stones, displayed as a percentage.
- Customize AI confidence thresholds.
- **FACT—YEHUDA Sherlock Holmes 4.0 scored a 100% lab diamond detection rate on the ASSURE 2.0 independent testing, of course.**
- **Review Assure 2.0 test results →→→**

SAME 100% DETECTION RATE TECHNOLOGY AS THE 4.0!

Quickly and accurately test all of the visible stones with just one click, and immediately view the results on the provided mobile phone or tablet!

YEHUDA's user interface is simple to use—with no calibration required or a need to change testing platforms. All results are automatically uploaded to the Cloud! Plus, you can add lab reports, appraisals, your customer's name and photo, SKU#, bar code, and any number of files or data to the test upload.

Store all the test results from multiple YEHUDA detectors under one account.

Download the App from Google Play! \$12.50 monthly subscription fee per account (each account can have unlimited users). Up to 10 devices can be registered per account. For access to expanded features, visit cloud.yehuda.com on your desktop and sign in using your existing app credentials.

HUMAN DECISION IS NO LONGER REQUIRED, YEHUDA AI KNOWS

- Peer Built Watchout Database

**10 SECOND
ALERT**

KNOW WHO'S WALKING IN.

Knowing who is walking through your door changes how you operate in that moment—when to slow down, verify, or step away.

THEY EVOLVE. YOU STAY AHEAD.

These individuals refine their tactics over time, but now you have the advantage.

PREVENT LOSSES BEFORE THEY HAPPEN.

Owners/managers can intervene early and prevent losses before they happen. You already have instincts—this elevates them with real-time awareness. It works. It really works.

ELEVATE YOUR INSTINCTS.

You already have instincts—this elevates them with real-time awareness.

IMMEDIATE. ACTIONABLE.

Real-time intelligence delivered when it matters most.

SMALL SIZE BIG PROFITS!

Promote your watch battery replacement service and boost store traffic 17% while generating \$43,000 a year in profits!

Most watch batteries are easy to replace, and on average, cost less than \$1.00. With installation, they are typically sold by jewelers for \$12.50 or more. Build customer confidence by offering the world's leading watch battery brand, Murata (formerly SONY)!

Murata watch battery starter kits include everything you need: an assortment of the most popular watch batteries, battery change instructions and training video created by the American Watchmakers–Clockmakers Institute, Murata's 60-drawer organizer display featuring our exclusive popularity scale and cross-referenced drawer label set, and all the necessary tools, including:

- Multi-Battery Tester with Leads
- Snap Back Knife and Large Screw Back Wrench Case Openers
- Assorted Flat-head and Phillips Screwdrivers
- Murata Watch Battery Size Selector
- Plastic and Fine-point Metal Tweezers
- Spring Bar Tool and Assorted Spring Bars
- Watch Band Link Pin Remover & Extra Pins
- Hammer with Plastic and Metal Heads
- Watch Bracelet Band Strap Support Tool Holder
- Watch Case Vise
- Rubber Gasket Assortment
- Watchmakers Eye Loupe
- Inventory Control System
- Murata Cross Reference Guide
- Battery Recycling Container
- Four stickers for windows/cabinets

muRata BATTERIES

- **Sony transitioned to the Murata brand in 2017** after surpassing production of over 10 billion silver oxide batteries.
- Sony / Murata is recognized as **the Global Leader** in both the OEM and Replacement watch battery markets.
- Murata features **longer-life** Silver Oxide Batteries, with the **best anti-leakage system** in the industry.
- Murata offers a **“Smarter” Multidrain System**, reducing the number of SKUs required without compromise.
- All Murata Silver Oxide batteries are made in Japan.
- Sony / Murata invented the 0% Mercury Silver Oxide battery in 2004.
- All Silver Oxide and Alkaline batteries are Mercury Free and produced in Japan.
- Lithium batteries have always been Mercury Free.

- All Murata Lithium batteries size CR1632 or smaller are produced in Japan; all larger CR types are produced in Indonesia.
- All Murata Alkaline batteries are produced in Japan and are often trusted for use as original equipment in watch applications.
- Every Sony / Murata 5-piece Strip is marked with a UPC for that battery type.
- Sony / Murata was the world's first battery producer to offer child resistant strips of 5 batteries.
- Murata battery packaging is designed to help prevent medical injuries and loss of life from accidental ingestion.

GEMORO WBT21 WATCH & BATTERY TESTER

- Without opening an analog quartz watch, the **GEMORO** WBT21 can determine if the battery needs replacement or indicate if the watch requires service.
- The **GEMORO** WBT21 precisely tests Silver Oxide 1.55V, Alkaline 1.5V, and Lithium 3.0V batteries under the appropriate load conditions.

• The watch test feature is powered by a consumer-replaceable CR2430 battery (not included). The device has a smart battery-saving auto-off function that powers it down after 2 minutes of non-use. The **GEMORO** WBT21 comes with a full one-year warranty.

Item #WBT21-GO List Price \$59.95 **ON SALE FOR \$49.95**

BATTERY RECYCLING

WE BUY SPENT SILVER OXIDE WATCH BATTERIES

Don't toss those spent watch batteries in the trash. They are valuable! Kessler will buy your spent watch batteries and pay you a premium.

Don't wait! Now is a great time to recycle your spent or expired silver oxide batteries. Get a big cash payment while the price of silver is very high! Scan the QR code, fill out the form and get an estimated buy-back amount today!

- @ Less than 25 lbs: 1.5× the current silver spot price per troy ounce paid per pound of batteries received.
- @ More than 25 lbs: 1.7× the current silver spot price per ounce paid per pound of batteries received.
- For example, if silver is \$75.85/ozt, you'll receive \$113.78/ lb (if <25 lbs) and \$128.95/lb (if >25 lbs). Three pounds equates to more than \$341.34!
